

Local 513 Negotiation Update

December, 2011

Committee Members

Rick Dubinsky—IBT International Representative

Lynn Dziad—Chairperson

Julie Fox—Executive Liaison

Jan Trousdale & Crystal Fite

Your Negotiating Committee will meet again December 13—15, 2011. Did you know at every negotiations we have had with Comair over the years, a Teamsters International Representative has overseen them? Rick Dubinsky is the Representative for our current negotiations. Please see the Negotiations tab on our website for his information, biography, qualifications and experience. He has numerous years of experience attaining Tentative Agreements between flight crews and management. He was the President of the ALPA MEC at United during some very difficult economic times, so he is familiar with the conditions we face today. He has proven invaluable to your committee during our negotiations. We would like to thank the IBT for sending us a very capable International Representative to assist us with our negotiations.

Did you know that Lynn Dziad was on our very first negotiations team? Yes, for the five plus years it took to get the first contract signed. Check out Section 32 and see her signature there along with other great flight attendants.

We know you will hear a lot of rumors. If you have questions or concerns, please email your Local 513 at info@teamsterslocal513.org. Rest assured your committee is working hard on behalf of the whole group. They are driven by your suggestions and have heard time and time again, keep our jobs and keep our wages at the top of the industry.
